INSPIRING ACHIEVEMENT

Systematic Review Fact Sheet

Managing search results

This fact sheet is one of a series available that discusses systematic reviews, methodology, searching and sources. For research assistance contact the Flinders University Library.

Citation management software

Documenting and managing the search results (a guide to using EndNote to manage citations and reporting the search via PRISMA)

Endnote

EndNote is a bibliographic database and citation management application which is provided by the University to its staff and students. You need to supply your FAN and password to download the software on your own computer.

Download EndNote for desktop (Flinders University students and staff only).

Watch the video: Training and video tutorials provided by EndNote.
